Shaneyfelt and the FBI's scheme to sue me to "stop" me over my allegedly lieblous writing about him: these are only the first couple of records I came accross in the early Sections of the Commission file, 62-109090, in which it is apparent that Shaneyfelt had exactly the responsibility I attributed to him. I have not copied the many others. These and the note will serve as a reference if ever needed. (I lean increasingly toward the view that those phonet internal records were generated for ulterior purposes that may well have included conning Hoover.) HW 9/14/79
